It has been dull and featureless in the local fruit and vegetable market. The demand is always light just after Thanksgiving, but this year the duliness has been rather more pronounced than usual. Supplies, particularly of garden truck, are sufficient for the demand, but prices as a whole are firm.

The apple market is improving. Receipts have not only been smaller, but also of better quality. The recent unsatisfactory conditions were due in a large measure to an over-supply of common fruit, but that surplus has been used up and the market is in better shape than it has been before in several weeks. An active demand and higher prices are looked for during the rext few weeks. Cranberries have moved slowly, but receipts have not been large and they hold up well. Grapes have not gone very well. The domestic stock will not last much longer. The usual call for pears from other markets is lacking this year.

Potatoes were dull and easy, but the demand improved a little, and though prices did not advance, a steadier feeling is apparent. Receipts of string beaus are light and fancy lots bring high prices. Cabbages are much scarcer and a slight advance has been established. Choice sound onions are in steady demand and firm. Squashes are firmer. Lettice and celery do not change much. Cucumbers are quiet, but fancy lots are high. Turnips continue plenty and cleap.

Washing Silk.

An old recipe for washing silk of any kind or color is as follows: Put the silk, one piece at a time, into a basis containing alcohol, soft soap Card Case and common black molasses, in equal Cigar Case parts. Work the silk up and down in the mixture, avoiding creasing the silk if any rubbing has to be done. ### AS TO FORESTRY.

The Forest Service several years ago began a study of the forest plantations which had been made in this country and as a result of this study a scheme of co-operation with land owners and others was devised whereby the Forest Service gives practical assistance and advice in establishing commercial plantations, shelterbelts, windbreaks, etc. This assistance is usually embodied in a planting plan, which enumerates the given planting site, and gives instructions for the preparation of the ground and for the spacing and setting of young trees. Advantage has been taken of the assistance offered and hundreds of planting plans have been made for farmers, who have planted wood lots, shelterbelts, and eggs and a third of a cup of grated windbreaks with success in accordmaple sugar, add a level tablespoon ance with the directions furnished by

The First Christmas Night.

One winter's night, in the long ago, To Bethlehem came a babe; Within a manger rough and rude That little child was laid.

A song of peace, good will to men, Re-echoed through the sky; The Son of God had come to earth

That man might live on high. From eastern lands the magi came With gifts and incense sweet;

In holy pride the mother gazed As they bowed at Jesus' feet. The glory which they there beheld, We cannot tell, we do not know; That stable was a holy place,

Lit up by heaven's glow. O boundless love! a gift sublime! With man Christ came to dwell; To bring to all both light and life, A Saviour, Prince, the King Immanuel.

Large Profit For the Farmer

I. A. RANNEY.

If you knew where you could invest your money safely and get \$3 for every \$1 invested, wouldn't you do it? H. C. Ward of Richville, Vt., says some of the farmers in his vicinity get more than that. Here is what he says: "I have sold your Poultry Food for the last two years with good success. The farmers in this section are well pleased with the results from the use of this food. I believe that for every dollar the farmer invests in your Poultry Food he gets three dollars in return. Some of my customers even claim more than this profit from the use of BARTON,

WHAT PEOPLE SAY ABOUT IT

Boston Globe-A 48 page pamphlet exquisitely illustrated with the finest reproductions of the most attractive scenery.

Bristol Herald-One of the best we have ever seen. The beauties and advantages of Barton are set forth in an interesting and convincing manner. Groton Times-A most commendable enterprise. The booklet is handsome-

y printed and the printed matter is interesting and nicely arranged. Caledonian-Beautiful Barton is a pretentious book of 50 pages, dedicated to Col. William Barton, Hon. Ira Allen, Hon. Daniel Owen and the redoubtable Father of our Navy, John Paul Jones, all of whom were the original proprietors and charter parties of the township of Barton. Printed in rich brown ink the handsome brochure contains numerous lake and brook scenes as well as pictures of homes and churches. The views of the sports and fishing on Crystal Lake give one what Mark Twain has so aptly termed 'the spring fever.'

Rutland News-It makes us long to pack our trunk and start at once for Beautiful Barton-by-the-Lake.

Express and Standard-It is a beautiful work with colored plate cover showing Crystal Lake and surrounding scenery and contains some seventy views. The illustrations are in brown, the printed matter concise and the whole work finely executed.

St. Johnsbury Republican-The Barton Development Association has issued a handsome little brochure "Beautiful Barton" designed to show the attractions of that town and to aid in making a bigger, better, busier and brighter Barton. The book is the work of Colby Stoddard, formerly of St. Johnsoury and shows that our northern neighbors are wide awake.

"Barwood," Helensburgh, Scotland.

Colby Stoddard, Barton, Vt., U. S. A. Dear Sir:

I duly received your \* \* \* copy of the booklet, "Beautiful Barton." I congratulate you on the arrangement of the same, and have no hesitation in saying that the title, "Beautiful Barton," has not been misapplied. Herewith I send you some pictorial cards illustrative of Loch Katrine, Loch Lomond and the Trossachs, which, from personal knowledge, I can assure you are very good views of the places. There is a decided similarity between the views round these lakes to the scenery you describe in your booklet, and if Scotland were more wooded it might almost be taken for a portion of New England. In its hills, lakes and rivers it is very like your country. The quotations you use are good and apt. The book also gave me considerable pleasure, for which I thank you.

Thanking you for your kindness, I remain, Very truly yours,

E. W. MCCORMICK.
